Ref: Reference Application Letter for Tyne Tunnel

To whom it may concern,

I am writing this reference at the request of John Thompson, Director Intelect UK Ltd, who has asked me to provide this general letter as a reference from Converteam UK Ltd (Converteam).

Converteam have worked with Intelect UK Ltd for some years on a number of projects including panel manufacturing, standard and purpose built, site installation of panels and also site installation and testing of electrical cables and accessories.

Intelect recently supplied Converteam with several control panels and site installation labour for a project replacing existing panels for a crane upgrade at Leith Docks (Ref: CB60872) during the period of Q4 2008 with installation being carried out in March/April 2009. This job went ahead successfully. The panels were manufactured to a high standard, and all supplied labour carried out their work in a professional manner.

Intelect have a number of strengths to offer focused towards good workmanship and promptness. They are team players and work well under pressure.

Intelect continue to be one of our preferred suppliers for the provision of equipment and site services of this nature.

Regards
Mario Cassar
