

To Whom it May Concern

27th July 2009

Dear Sir

Intelect UK Ltd - Letter of reference

John Thompson, Director of Intelect UK Ltd, has asked me to write to you with the following letter of reference.

As the senior engineer and project manager for Dalkia Industry & Healthcare for the North East of England I have been regularly employing Intelect for the past 2 years, since my appointment. Dalkia has, however, been utilising Intelect's services for some considerable time prior.

Dalkia has employed Intelect for a significant number of projects ranging from minor works to a key contractor within multi million pound projects. The most recent of which being the extension of a North Tyneside Hospital Energy Centre consisting of: -

- New build civils
- Additional 1.4MW combined heat and power plant
- 6MW steam raising plant
- 3.6MW standby electrical generation plant
- HV & LV switchboards
- Associated M&E installation

Within the above project Intelect played a key role in the electrical aspects ensuring the project was completed on time and on budget. Intelect were able to respond to changes in plan in a timely manner and their serious scrutiny of Health and Safety helped to ensure that the project passed without any major incident.

In conclusion I would recommend Intelect UK Ltd as a most professional and able electrical contractor.

Yours sincerely,

Graham Elliott BEng(Hons). MIPlantE
Senior Area Engineer
