Dear Sirs,

I am writing to express my thanks for the work which you recently completed at the 3H's Wind Farms to make improvements to the building electrical infrastructure and to perform the routine electrical testing of the control buildings. As with previous visits by your employees, all workers were punctual, well presented and a pleasure to have working on the site. The work was completed safely, on time and to a very high standard.

I would have no hesitation in recommending Intelect to any of my colleagues or external companies and look forward to dealing with you in the future.

Yours sincerely

Phil Martin
Wind Farm Technical Manager.
